Education

National Institute Of Business Management

- **Bachelors in Software Engineering**
  2024 - 2026
- **Higher National Diploma in Software Engineering - Reading**
  2023 - 2024
- **Diploma in Software Engineering - 3.89 G.P.A**
  2022 - 2023

Anula Devi Balika Vidyalaya

- **G.C.E A/L - Physical Stream**
- **G.C.E O/L - 9A's**
  2007 - 2020

Strengths

Team Work

Time Management

Creativity

Critical Thinking

Flexibility

Language

Sinhala

English

Profile

I am a Software Engineering student passionate about web development and programming, with a strong interest in both front-end and back-end technologies. I have experience creating user-friendly web applications using HTML, CSS, JavaScript, PHP, and C. I thrive in proactive teams, continually update my skills with current trends, and am eager to apply my knowledge through an internship to contribute to high-quality software development.

Skills

- **Web Development** - HTML , CSS , JavaScript
- **Programming Languages** - PHP , C , C++
- **Framework & Libraries** - Bootstrap , JQuery
- **Database** - MySQL , Firebase
- **Tools & Technologies** - GIT , REST APIs , Wamp
- **Other** - Word , Excel , Powerpoint , Figma , Draw io

Projects

Restaurant Management System

First Year Final Project (Group) - (2023June - 2023 August)

- This system can handle all the restaurant daily functions like manage order,payments,update menus.other than that customers can make table reservations and place their orders and payments through this system.
- **Technologies | PHP,HTML,JavaScript,CSS,Bootstrap,MySQL**

Cafe Table Reservation System

Group Project - (2023July - 2023August)

- Online table reservation web site, where user can log in, reserve tables and view menu , check open hours and admins can maintain the customer reservations and tables.
- **Technologies | PHP,HTML,JavaScript,CSS,Bootstrap,MySQL**

Library Management System

Individual Project - (2023 May -2023 June)

- A simple application for manages library functions where students can borrow and return books and admins can maintains returned, issued books details and student details.
- **Technologies | C++**
